HEALTHY LIVING, NATURALLY

Rönzac is a health and wellbeing brand development company, which is registered in over 50 countries around the world, including all of the EU countries. We have a considerable history of specialization in non-prescription nutraceuticals, as well as health and wellness supplements.

From sourcing the finest quality raw materials to packaging and delivering finished products, we apply the highest GMP standards, ensuring that only the best will reach the consumers. When it's Rönzac, it's guaranteed to meet European and USA FDA approved quality standards.

Bringing innovative health & wellbeing solutions to over 50 countries Globally

*The highest quality,
purest, natural
health & wellness
products*

GROWING, NATURALLY

The growth of the Rönzac collection of brands has taken place naturally and organically, over time. Our success has depended on the trust of our customers and, most importantly, the ultimate consumers who rely upon and benefit from our branded products. We appreciate that maintaining our growth relies on our continuing ability to provide the highest quality, purest, natural health & wellness products, package them securely and hygienically, then bring them to market at fair and reasonable prices.

OPTIONS, NATURALLY

The range of Rönzac Health & Wellness brands currently include a wide variety of vitamins, minerals and other health and dietary supplements, for both adults and children. For blood-related concerns, we provide a number of solutions in hypertension and blood circulation care, as well as treatments for cholesterol care. We have specialized care products to help treat Diabetes, which is now reaching epidemic levels. For respiratory care issues, we provide relief through different options, depending on the consumer's needs. The complete spectrum of Rönzac solutions includes brands for hair & skin care, sexual care, sleep care, pain management and spasm treatment.

*Vitamins, minerals
and; other health and
dietary supplements
for both: adults and
children*

With today's hectic lifestyle, "every body" deserves a tonic boost to keep them at their optimum performance level.

General Tonics

Our modern, hectic lifestyles will often leave us feeling worn out and run down. Taking a General Tonic, as a dietary supplement, can help to restore or maintain our physiological functions, leading to the stimulation of feelings of invigoration, inner strength, refreshment and complete wellbeing. Rönzac General Tonics are made with all-natural and pure ingredients that support overall wellness.

Some of our General Tonics can also have more specific benefits, such as helping to improve the libido of users, which enhances their quality of life.

Ginkgo powder	50 mg

Anti-Oxidants

Antioxidants are molecules that defend your body from the harmful effects of free radicals. Multiple illnesses, including diabetes, heart disease, and cancer, may be linked to the levels of free radical compounds becoming too high in the body. While your body does have its own antioxidant defences, to keep free radicals under control, antioxidants are also provided through a healthy diet that includes fruit and vegetables. Certain vitamins, such as vitamins E and C, are known for their antioxidant protection.

Where a dietary supplement is desired, to boost antioxidant protection, Rönzac offers completely natural solutions for a healthy life.

Multivitamins & Minerlas

Ideally, we should be able to get all the vitamins and minerals we need from a healthy balanced diet, but in some circumstances, this may not be possible. Multivitamins and minerals are often used to treat vitamin or mineral deficiencies caused by inadequate nutrition, illness or digestive disorders, pregnancy, certain medications, and a wide variety of other conditions.

Many adults benefit from the potential immunity boosting actions of multivitamin and mineral supplements, while it is also recommended that children aged six months to five years take regular supplements containing vitamins A, C and D.

The great range of Rönzac multivitamin and mineral supplements provides for all the varied needs of adults and children alike.

Rönzavit® Iron Capsule

- **Indications:**
Immunity Booster
- **How to use & recommended dose:**
Take 2 capsules daily
- **Product presentation:**
120 caps

Product ingredients:	
Zinc	25 mg

Blood Circulation & Brain Health

Healthy blood and good circulation are vital to the optimum functioning of your whole body, including your brain. Your circulating blood transports nutrients, including oxygen, to every cell in your body, while carrying toxins away. Although your brain only makes up a very small percentage of your body's overall weight, it is believed to use around 15% - 20% of your heart's output in delivering the oxygen and glucose that your brain needs to operate properly. If your blood circulation is disrupted, it can result in damage to your brain. This can lead to a number of neurological function disabilities and other adverse conditions. On the other hand, by maintaining the health of your blood vessels, you may be able to avoid diseases such as Alzheimer's as well as many mental health issues. Physical ailments including heart disease, strokes and high blood pressure could also potentially be avoided.

The Rönzac range of supplements, specially formulated for Blood Circulation & Brain Health protection, is made with completely natural and healthy ingredients.

Rönzavit® Ginkobiloba 60 Capsule

Rönzavit Ginkgo Biloba Capsules promote improved blood flow to the brain, among many other benefits.

Ginkgo Biloba	60 mg
Rosemary Extract	15 mg

Cardiac Health Care

Over an average human lifespan, the hard working heart may beat around 2.5 billion times, pumping millions of gallons of blood throughout the body. But, as soon as the heart stops beating, everything else will fail immediately. The adversaries of a healthy heart can include genetic issues, lack of exercise, poor nutrition, smoking, and infections, among many other factors.

In particular, the accumulation of cholesterol related deposits, called plaque, inside the arteries can greatly reduce arterial blood flow. The gradual build up of plaque could ultimately lead to heart attacks or strokes. Fortunately, a healthy diet and lifestyle can play an important role in reducing the risks of cardiovascular disease. Given the vital importance of your Cardiac Health, in relation to your overall health and wellness, it is also worth considering the benefits of taking high quality Cardiac Health Care supplements.

Rönzac offers a range of natural supplement products, which are specially formulated to help protect your cardiovascular system.

OMEGAT® 30 Soft Capsule

Omegat Soft Capsules provide Omega 3 to promote optimum heart and brain functions.

Stomach & Digestive System Care

A universal belief is that the health of the stomach, and digestive system in general, is strongly connected to a person's overall health. For example, the bacteria found in your <gut> not only works to digest your food, but also help keep harmful bacteria under control. These <good> bacteria work throughout your body, and can be beneficial for both your physical and mental health. Some types of gut bacteria may be involved in the link between cholesterol and heart disease.

Rönzac offers an all- natural solution to help counteract a number of common digestive system issues.

Take 2 capsules daily

• **Product presentation:**
60 caps

Product ingredients:	
(MSM)	400 mg
Hyaluronic acid	25 mg
Turmeric powder	2 mg

Respiratory Care

We rely on our respiratory systems to work hard every moment of our lives. The 20,000 breaths we take every day enable oxygen to be passed into the blood, which is then pumped throughout our bodies. The air sacs in our lungs also absorb carbon dioxide, which is removed from the body when we breathe out.

The ability to breathe, without restriction, is clearly important to our most basic health needs. Rönzac offers a range of natural remedies to counteract the most common respiratory problems, which most of us face during a typical year.

Ronose® Alovera Mint Adult 30 ML

Ronose is a nasal decongestant solution that is formulated for adults, to clear & cleanse the nasal passages.

Anise fruit dried extract 800 mg

Kidney & Urinary Tract Care

Kidney and urinary tract infections (UTIS) and conditions such as kidney stones are common. Bacteria that enter your urinary tract through the urethra, the tube that carries urine from your body, can multiply in your bladder and travel to your kidneys. The urinary system is designed to fight off such microscopic invaders, but sometimes these defenses fail. Kidney and urinary tract infections can have serious consequences, so it is important for your general health to avoid them.

Rönzac offers several natural and pure products to help keep your urinary tract and kidneys healthy. The Rönzac range includes Uricran capsules and sachets to help fight off infections of the urinary tract and bladder. These quality products are made in the USA from pure Cranberry & Hibiscus extracts. It is widely accepted that natural compounds, found in Cranberry and Hibiscus, can stop harmful bacteria from attaching to the linings of the urinary tract and bladder. Hibiscus may also be effective in destroying some of these bacteria.

For kidney and ureter stones, we offer Rowanzac Softgels, made in the USA. Rowanzac counteracts kidney and urinary tract stones, while relieving muscle spasm, thereby reducing the pain of kidney and urinary colic. The pure and natural active ingredients include Olive, Rosemary and Fennel Oils.

Nephrozac® (Rosemary + Fennel + Olive oils)

Nephrozac Capsules contain a trio of natural oils that help to counteract the effects of kidney stones & spasms.

• **Indications:**

Kidney stones & spasms

Skin Care

Skin is our largest organ and adults are covered in around 2 square meters of it. Our skin acts as a shield against extremes of temperature and harmful chemicals. It also produces antibacterial substances, which help prevent infection, and it manufactures vitamin D involved in the conversion of calcium into healthy bones. Our skin also acts as a sensor, with nerves that keep our brains in touch with the outer world.

Skin can also be fragile and needs to be properly maintained for the good of our overall health and wellbeing. Our range of natural Skin Care products, manufactured in Germany, includes gels, creams, capsules and vials, which all help to maintain skin health.

KIDS Multivitamins

It's essential for children to have the right combination of vitamins from a very early age. To support normal vision, the immune system, mental development, as well as the normal growth and development of bones, it is recommended that children take a range of important vitamins from 6 months to 5 years of age.

Rönzac KIDS Multivitamins provide many benefits, from maintaining healthy bones and teeth to helping assist in their overall nutrition. Our Kids Multivitamins come in a variety of appealing and tasty syrups and vials.

Hemorrhoid Treatment

Hemorrhoids, also known as piles, are swollen veins that can easily become irritated. While hemorrhoids can be unpleasant and painful, they are preventable and can usually be easily treated. As hemorrhoids can become worse, over time, doctors suggest they should be treated as soon as possible. In many cases, simple actions will counteract symptoms, while the hemorrhoids improve without medical intervention.

However, in some cases, medication or surgery may be required. Rönzac offers different solutions for this irritating condition, depending on the sufferer's needs.

Rohelar® Suppositories

Rohelar Suppositories harness the natural efficacy of Hamamelis, to help provide relief from the discomfort of Hemorrhoids.

Immunity Preparations

The artificial induction of immunity to specific diseases is about making people immune to these diseases, before they can catch them. Louis Pasteur invented pasteurization as a method of destroying harmful bacteria. Since Pasteur's discoveries, and his support for a germ theory of infectious disease, we have been inducing immunity against an increasing range of diseases.

Rönzac provides some wholesome and healthy options for you to increase your natural immunity to infection and disease.

Cordyceps Powder	125 mg
Graviola Powder	50 mg
Coenzyme Q10	5 mg

Hair Care

It is often said that truly healthy hair can only come from the inside out, and that your hair quality indicates your overall health.

No matter how many hair care products we buy, having a full head of glossy hair depends partly upon our diet and the nutrients we consume. A balanced diet, with plenty of the right vitamins, minerals and essential fatty acids, is necessary to nourish and strengthen our hair follicles. A healthy hair follicle, from which new hair growth begins, is the first step towards ensuring beautifully healthy hair.

The Rönzac range of hair care options, from Germany and Spain, helps by providing the natural ingredients that your body may be lacking, for optimum hair growth and quality.

L-Theanine Extract	16.67 mg

Prostate Care

As some men age, their prostate glands can become enlarged. This condition is known as Benign Prostatic Hyperplasia (BPH). This enlargement is often the cause of the urination issues that trouble many men by around the age of 60. A number of foods are known to have an impact on prostate health, due to their effects on certain hormones. For example, a diet primarily consisting of meat and dairy products has been found to increase the risk of prostate enlargement and cancer. On the other hand, a diet rich in fruits and vegetables, as well as healthy fats, is believed to protect the prostate.

Rönzac offers an all-natural product that helps to protect the prostate, in combination with a healthy diet and lifestyle.

Healthy Living, Naturally!

Feminine Care

Premenstrual Syndrome (PMS) is the term covering symptoms women can experience in the weeks before their period. Most women have PMS at some point, which is believed to be linked to changes in hormone levels during the menstrual cycle. Each woman's symptoms are different and can vary from month to month. Some of the most common symptoms of PMS include mood swings, anxiety, tiredness, bloating, pain, headaches, spotty skin, as well as changes in appetite and sex drive. Getting enough sleep and having a healthy, balanced diet can help with PMS.

Additionally, Rönzac offers completely natural products, specially formulated to help counteract these debilitating symptoms. Other Rönzac products, dedicated to feminine care, include natural formulations to promote healthier hair and nails, general health and wellbeing, and enhanced energy levels.

Collagen Derivatives

Collagen is a protein, which is important for maintaining healthy joints and skin elasticity. Collagen is found in your bones, muscles, and blood. In fact, it forms a large proportion of your skin and the protein in your body. However, with advancing age, our collagen breaks down, while it becomes harder for our bodies to manufacture more. Collagen is vital to good health and, in addition to promoting optimum skin elasticity & hydration as well as ideal joint function; it also helps create stronger bones, healthier hair & nails, and increased muscle mass.

Rönzac offers a variety of collagen-based solutions, which can help to improve your levels of this essential protein, to augment an existing healthy diet. All of our collagen derivatives are pure, natural and completely healthy.

Manganese	1 mg
Zinc	5 mg

Effervescent

Effervescent tablets release carbon dioxide when they are dissolved in water, to create 'fizzy' drinkable solutions. These tablets are made by compressing the powdered ingredients into a solid form. Effervescent tablets have been manufactured and sold by the pharmaceutical and nutraceutical industries for over two hundred years. It is believed that effervescent may increase absorption and the speed of effect by increasing gastric pH, as this may quicken delivery of active ingredients to the small intestine. Additionally, the carbon dioxide bubbles may help intestinal absorption. Effervescent are also a convenient, enjoyable and easily swallowed method of consuming supplements, for adults and children alike.

Rönzac offers a great array of effervescent based products, to satisfy a range of different healthcare needs.

C-Ronz® Vitamin C Plus Zinc Effervescent Tablets
